

soar™

imagine. elevate. Soar.

soar™

reach new heights.

Grown in small batches, Soar Cannabis is disciplined in our approach. Thoughtfully selected cultivars, hang-dried and hand-detailed for an elevated experience.

thoughtfully selected

Each cultivar in our portfolio is thoughtfully selected for its unique or exotic characteristics.

hang-dried

Each small, expertly grown batch is carefully harvested and hang-dried in a state-of-the-art, climate-controlled setting to protect the strain's natural expression and aromatics.

hand-detailed

Our buds are expertly hand-detailed then carefully sorted. Only the best buds make it into our packs to ensure an elevated experience.

soar™

aroma collections

Soar cultivars are presented through our aroma collections, an intuitive approach designed to help you understand each cultivar and its potential experience, and ultimately discover what appeals to you most. How does it work? The strain is thoroughly reviewed by our experts and assigned to a collection—Citrus, Cake, Fruit or Gas—based on its expression and distinct aroma profile.
