Reach new heights.

**Thoughtfully selected,
hang-dried, and
hand-detailed cannabis.**

Soar Cannabis is selective and disciplined in our process. Grown in small batches, our cultivars are chosen specifically for their exotic or unique characteristics. High-quality whole flower is carefully sorted to ensure only the best buds make it through to the final product.

aroma collections

Based on the expression of our cultivars and their distinctive aroma profiles, each strain is thoroughly reviewed and assigned to an aroma collection: Gas, Fruit, Cake and Citrus. While aroma is only one element, we believe it plays an important role in understanding the cultivar and potential experience.
