PURE SUNFARMS™

GOLD FACE

This golden sativa delivers hard-hitting potency and intense aromas, thanks to its killer lineage. Our particular pheno was selected in the Pure Sunfarms greenhouse for its dense and sticky golden buds and dreamy fruit punch aromas. Its bold expression is an ode to the classic citrusy and sugary Animal Face, amplified by Electric Grapefruit's bright aromas of sweet pomelo. Finished with fresh herbal notes, and a hint of something skunky.
